47	PANKAJ PANDE- 1140	9923951371	pankajpande1@gmail.com		Respected Sir/Madam, I am writing to express my deep concern regarding the increasing population of stray dogs in our neighborhood. Over the past few months, the situation has become increasingly problematic due to such as aggressive behavior or attacks and poses a significant threat to the safety and well-being of our community. The presence of these stray dogs has made it unsafe for residents to walk their pets, children to play in the parks, and for anyone to take an evening stroll. Additionally, the constant barking and howling during the night disrupts our peace and tranquility.I kindly request that the local authorities take immediate action to address this issue. Possible solutions could include: Implementing a trap-neuter-return (TNR) program to control the population. Increasing patrolling in the area to catch and relocate aggressive or nuisance strays. Promoting responsible pet ownership and encouraging residents to report any stray dog sightings. Establishing a local animal shelter or rescue organization to provide care for homeless dogs. I understand the challenges involved in managing stray animals, but it is essential to prioritize the safety and well-being of the community members. I urge you to take swift and effective action to resolve this issue and restore our peace of mind.Thank you for your attention to this matter. I look forward to hearing about the steps that will be taken to address this urgent concern.	2024-02-17 16:37:50

62	Shobhana Sharma - 1156	9960560368	oshoprem14@gmail.com		In our area Max. Sewerline Not Cleared, Even Top Cover Of Main Chamber Fully Damaged. Though Which Health Problems Increasing. Even Water Drainage Systems Are Not At All Proper. In Every Rainy Season Since Last Many Years Water Flow Inside The Home Because Of Heavy Rain. Even Of Construction On Inner Road Blocked Main Road So Instead Of 30ft Road, It Become 3 ft Road. But No one is taking Care Of Such Major Problems.	2024-03-01 16:21:26
63	Shobhana Sharma - 1157	9960560368	oshoprem14@gmail.com		In Our Area Rain Water Drainage Systems Are Not At All Made. In Heavy Rainy Season Water Goes In Residence, Even All Our Home Goods Gets Damaged In All Rain. So Before Rainy Season It's Should Be First Priority To Make Proper Drainage Systems to Save Our Pains. Even Inside Road Are Occupied iligally So Roads Becomes So Narrow.	2024-03-01 16:31:09

88	Antariksh Borkar- 2343	7588110217	borkarantariksh@gmail.com		<p>I am writing to propose a transformative initiative aimed at enhancing the efficiency and effectiveness of our public transport system through the establishment of a network of short routes. Currently, our public transport system operates on standard routes, often leading to overcrowded buses, increased waiting times, and limited accessibility to various destinations. To address these challenges, I suggest implementing a network of interconnected short routes that would significantly improve commuter experience and optimize resource utilization. Here are some key benefits of adopting a short route network:</p> <ol style="list-style-type: none"> 1. Reduced Waiting Time: By eliminating the need for commuters to converge at a few major stops, we can substantially reduce waiting times for passengers, leading to a more efficient and timely service. 2. Enhanced Accessibility: The short route network will increase accessibility to various destinations by providing direct connections between different parts of the city, thereby reducing the need for multiple transfers and improving overall travel convenience. 3. Increased Availability of Buses: By distributing passenger loads across multiple routes, we can ensure a more balanced distribution of buses, thereby reducing overcrowding and improving service reliability. 4. Decreased Chaos: Implementing short routes will minimize chaos at major stops, as buses will no longer be overwhelmed by large crowds of commuters, resulting in a smoother and more orderly boarding process. 5. Lower Ticket Fare: With a more optimized and efficient transport system, we can explore the possibility of reducing ticket fares, making public transportation more affordable and accessible to all members of the community. 6. Reduced Corruption: Short route services can help minimize opportunities for corruption among ticket checkers, as the streamlined process will make it easier to monitor and enforce fare regulations. <p>To optimize the short route network, we propose collecting data on passes issued, commuter travel patterns, and feedback from passengers. This data will enable us to fine-tune the routes and schedules to better meet the needs of the community. I believe that implementing a short route network represents a significant opportunity to revolutionize our public transport system and improve the quality of life for all residents. I am eager to discuss this proposal further and explore the possibility of collaboration to bring this vision to fruition. Thank you for considering this proposal. I look forward to hearing your thoughts and feedback.</p>	2024-03-25 15:20:11

98	Ahmad Jawwad Ahmad- 3206	9737880125	jawwad_lit@rediffmail.com		Dear DC-SWM,As you might be aware, people keep dumping the garbage on nearby vacant plots/corners. This is mostly due to the fact the BVG trucks are not visiting the localities daily and people are forced to dump the garbage. my suggestion is to identify such spots (hardly 2-3 in each locality) where people are dumping the garbage and put the barricade with a sign board reading "OYE GADHE, YAHA KACHRA MAT PHEK, KAL GAADI AAYEGI US ME DAAL, NAHI TO DUGA BATTI"	2024-04-04 13:26:54
99	Mustak Nawab Sheikh- 3207	7620654576			Birth record	2024-04-04 21:17:54
100	Antariksh borkar- 3208	7588110217			I am writing to you anonymously to suggest a constructive approach to address certain concerns that have been affecting our community in Yadav Nagar, specifically regarding illegal tent formations and noise pollution during sleep hours, especially with the upcoming wedding season.It has come to our attention that there has been a recent increase in the unauthorized placement of tents along the roadsides, causing inconvenience to residents and disrupting traffic flow. Additionally, the noise pollution generated from these makeshift structures during late hours disturbs the peace and quiet of the neighborhood, which becomes even more pronounced during the wedding season festivities.In light of these issues, I propose that the Nagpur Municipal Corporation consider implementing measures to address them effectively. One suggestion is to enforce fines for individuals or groups responsible for the illegal tent formations and noise disturbances, particularly during the heightened activity of the wedding season. By imposing penalties, we can deter such activities and ensure compliance with municipal regulations, thus mitigating the disruption caused during this period.Furthermore, I recommend that the funds collected from these fines be allocated towards a community-oriented initiative that benefits all residents. Planting trees along the roadside in Yadav Nagar could be a worthwhile endeavor, as it not only helps mitigate urban heat but also enhances the aesthetic appeal of our neighborhood and promotes environmental sustainability.I also want to emphasize the importance of maintaining sensitivity and discretion, particularly during communal gatherings and festivals associated with the wedding season. While it is essential to enforce regulations, it is equally important to respect cultural traditions and community events.In conclusion, I urge the Nagpur Municipal Corporation to consider these suggestions for addressing the issues in Yadav Nagar, Ashi Nagar Zone, especially as we approach the wedding season. By taking proactive steps and investing in community-centric initiatives, we can create a safer, healthier, and more harmonious living environment for all residents.Thank you for your attention to this matter. I trust that you will respect my request for anonymity in this matter.	2024-04-04 21:38:48

125	Vishal Petkar- 5459	9096221977	vishalpetkar5@gmail.com		Dear Team,I appreciate the dedication you show in your work. As a normal citizen living in our society, I do not expect much from the government. Instead, I aim to offer my support. I pay significant taxes from my salary, and my expectations are minimal. Here are a few examples:Regular garbage collection.The ability to pay taxes through an online portal.Consistent daily water supply.Issues Encountered:Property Tax Payment:My property was not listed for tax payment. I visited the Ashi Nagar Zone office and submitted an application with all the necessary documents. It has been about 15 days with no action taken. Despite multiple visits, the responsible officer was often unavailable.As I have a full-time job and can only take leave on Sundays, it is challenging to make repeated visits to the office. I cannot neglect my job responsibilities as I am the sole provider for my family. I hope you understand my predicament.Garbage Collection:Garbage collectors do not come regularly, sometimes delaying more than a week. This leads to garbage accumulation and the breeding of worms, which then spill out of the bins.Water Supply:Although the water issue has been resolved now, I faced significant problems despite paying my bills regularly. The past difficulties were considerable.Expected Solutions:There should be an online portal where I can post complaints if services are not provided regularly. Occasional issues are understandable, but there should be a way to report them efficiently.A mobile application should be available for everyone. This app should notify department employees about complaints in their areas, enabling them to address issues promptly.As the world becomes more digital, it is crucial that we address and improve these basic services. I believe focusing on these improvements will greatly benefit our community.Thank you for your attention to these matters.Sincerely,Vishal Petkar(Software Engineer)	2024-06-13 14:12:32

165	Ganesh Jagatrao Hajare- 5499	8698815559	ganesh.hajare@gmail.com		All drain pits along the street shall be numbered and their status (blockec/free/damaged/civer broken etc) shall be monitored from Daily Report from Sweeing workers. No special team required. Sanitory inspectors can manage this work.	2024-07-17 03:50:37
166	avinash dhepe- 5500	7588630183	a.m.dhepe@gmail.com		At the outset I would like to congratulate for this new initiative. My concern is about developement work it is seen that while doing any development work contractor/authority will not take proper care while doing this work & work completed will not as per the specific standard. It is suggested that while approving any development work citizens of that particular area may be given schedule for work done & authorised to follow development work going on & feedback may be sought and importantly final bill of the contractor may be passed only after getting work done certificate from the citizens of the area.	2024-07-18 13:08:40

233	Karan nagulwar - 14403	8956333778	karannagulwar.rock@gmail.com		There are many people who dump waste and many suffer due to this but constant to fear of conflicts no one wants to give complaints of such act. In this modern AI world everyone has smartphone but no one is using it for smart work. It would be great if NMC takes initiative to support this cause, by implementing bounty rewards on each complaints. If complaint is genuine then respective fellow who dump garbage is to penalized and some portion of this penalty can be utilised as Bounty to those who file complaint . Offcourse NMC should encourage garbage collector team for effective work. Penalty amount should be distributed to complainant, garbage collector and NMC penalty fund. Just a penalty of 200 to 500 can contribute in major changes. Think of it. And thank you for work you have done in Shreenagar area. Special thanks to Kamlesh ji and NMC public health team and offcourse thanks to sanitary officers who personally monitored process and thanks to NMC commissioner.	2024-09-20 08:58:29

334	Ravinder Singh Khurana- 25235	9552555790	rs.khurana@dpjaingroup.com		The foul smell and filth of NALLAHS is black spot in the smart City of Nagpur.This can be taken care of by implementing the modern ideas.At any given time the flow of sewage water into the nallah is constant. After concrete flooring of nallah, a slab of two ft height with lid/covers at interval for clean in case of emergency, can be done so that the sewage water flows thru it and the upper portion be used to carry rain water/road drainage water.This way the nallahs will not give bad smell or bad look and also crores of rupees be saved on cleaning as no vegetation will come up in it.	2025-01-10 17:07:30

376	Avinash Gowardhan - 25468	9422147584	avinash.gowardhan@gmail.com		Respected Municipal Commissioner Nagpur Municipal Corporation Nagpur This is submit with great sadness that I must point out the way Hearse Vans are being parked at the busy T point junction between RPTS Road and Laxminagar Jain Mandir Road. These vans, which display the name of the NGO providing the service of transporting deceased individuals to the cremation center, are illegally occupying a significant portion of the road's right at a crucial T-junction. This issue has persisted due to the lack of actions/objections, a third Hearse Van has now encroached on the junction. I am sure sooner or later this spot becomes a parking terminal for Hearse Vans! While this is undoubtedly an essential service, ideally provided by the NMC or hospitals, the lack of regulation has led to serious inconvenience for commuters. Since NMC does not directly provide this basic service, they should at least ensure designated parking and regular cleaning of these vehicles. Proper maintenance and hygiene are necessary to ensure dignity in the final journey of the departed. NMC must take this issue seriously and arrange for a proper parking space with cleaning and servicing facilities for these poorly maintained Hearse Vans. Sincerely Avinash Gowardhan (A senior citizen on Nagpur) 176 Laxminagar Nagpur	2025-02-28 10:42:27

466	Abhilash Kadoo- 30217	8149315207	abhilashkadoo@gmail.com		Currently concrete road work is on going along with storm drainage system. It better to implement rain water harvesting pit in storm drainage so that ground water level can be restored again especially in households/ Societies areas. It concerning for future when all the rain water will flow away in drainage as road will not absorb any water and rest is flown in drainage. This small modification in all the storm water drainage pit into rain water harvesting pits will help in following advantages:1. Increases ground water capacity.2. Reduced storm drainage loads in piping.3. Boost to borewell and open well in household areas.4. Only small modification will be required to change regular pit to rain water harvesting pits with no road digging.Some place to avoid:1. Avoid installing rainwater Harvesting pits on main city roads, flyovers, or where heavy vehicles movement to avoid ground contamination due to any accident (ex. Acid truck leakage) also to disturb strength of structural foundations. Experts to advise.Thank you.	2025-05-22 08:52:29

483	SARANG DHOTE- 32306	9822463373	sarangresearch@gmail.com		I am Dr. Sarang Dhoté from Nagpur, and I have developed a unique smartphone application called "Talking Tree." This innovative app enables trees to "speak" to users—providing information in both text and audio formats. Each version of the app is customized for individual gardens, allowing visitors to interactively learn about the trees and plants around them. I am keen to develop and implement the "Talking Tree" app for gardens managed by the Nagpur Municipal Corporation (NMC). I believe this initiative can greatly enhance environmental awareness and educational engagement for the public.	2025-05-31 07:55:19

487	kishor Deshmukh- 32311	8605090200	deshmukh.kb@gmail.com		Dear sir I citizen of Nagpur from birth education doing business in nagpurAs I work from last 30 yrs in safety for 0 accident in industriesSuggest lot many solutions regarding safety.I regularly going to my place of work from manewada besa Rd to wadi by vehicles. Due to traffic on main, road I used internal road from my house to onkar Nagar Chowk. Sir during this I passed three area my area. Sadguru Nagar & mangaldeep to green planet colony. During this regular travelling my observation on small casualties are at corner of houses or mostly T point.Why this is happening?I study the caused. 1.speed of vehicle. 2.talking on phone while driving 3.tangent of Corner plot is not properly maintain with ht of boundary walls. No visibility across two road.4 Driving sense of people to put horn on blind corners.I suggest some remedies1.corner plot to be have good tangent for visibility.2. Put grills on tangent wall & for proper visibility & have simple design 3Ht to be maintain,as low as per std.4.Put proper speed limit board & speedbreaker As per my observation in mangaldeep 3 plot I note in chintamani 1 have noted 4pointAt T section Thease all point are due ht of boundary wall. Tangent cut. No visibility. So pl arranged inspect spot of road T point suggest owners of Corner plot to make modification To avoid accident prone zone As Schools are going to start all school buses , vans start moving In few days at that time every parant in hurry all school drivers. Van drivers have time limit So. All T point are are convert in accident prone zone At this point this my observationHow to make accident free zone Kishor Deshmukh	2025-06-02 12:51:32

531	OM VINOD NARALE - 33171	8767847942	omnarale20@gmail.com		Subject: Request for Proper Road Markings in [Your Area Name], NagpurMessage:Respected Sir/Madam,I would like to bring to your attention that the road markings in our area — including lane lines, zebra crossings, and directional arrows — are either completely faded or missing. This causes confusion among drivers and pedestrians, increases the risk of accidents, and affects traffic flow.I kindly request the NMC to take immediate steps to repaint these essential road markings and maintain them regularly, especially on [mention specific road name or junction, e.g., "Ring Road near [Landmark]"].Proper road signage and markings are critical for traffic discipline and public safety. We hope the authorities will act on this civic concern at the earliest.Thank you.	2025-06-28 20:09:28
532	Mayuri Dani - 33172	8448311076	mayuridani.md@gmail.com		I want to suggest something to reduce traffic in general - while the Town planning plans a parallel road running from the colony (residential area) across all the major road so that all vehicles which are small in size and wish to just cross from one square to another can pass through residential area, for example besa Manish nagar road is often face traffic jam in peak office timings, if there were a same parallel road running from residencial area can allow vehicle to bypass main road and cross manish nagar square and go to other area	2025-06-30 09:55:46

577	Javed Salman Sheikh - 33246	9527636440	jsssheikh7@gmail.com		In our area (Abdul Hamid Nagar, Shiv nagar, Mahakali Nagar, Zakir layout, Mukund society etc) garbage collecting van is not coming once in a15-20 days. the driver is saying that vehicle is so old that it is getting Off many times on the way and the agency is not giving them another vehicle to pickup. so the people are dumping garbage outside. It's causing panic situations for health of our families. My request is to provide big bins in such areas so that people will dump garbage into big bins. I have seen such bigbins in smart cities to avoid spreading of harmful waste. Van directly take away garbage from bigbins.	2025-08-02 09:45:31

633	Shubham Pruthviraj Shende- 34463	8208169752	shendepshubham47@gmail.com		I would like to draw your attention to the urgent need for increasing greenery in our city. While development projects such as road widening and construction of footpaths are important, they often come at the cost of cutting down trees. This leads to loss of shade, rise in temperature, and decline in air quality.As a solution, I humbly propose that instead of constructing footpaths inside residential colonies and bastis (where they are often less used), the government should plant trees in those areas. This will:Provide natural shade and greenery for residents.Improve air quality and reduce pollution.Save construction costs on unnecessary footpaths.Encourage community participation, as residents can help protect and nurture these trees.I request you to kindly consider this idea and include it in future development and plantation drives. This will not only balance development with environmental protection but also ensure a greener, healthier city for future generations.	2025-09-12 17:05:46

688	DEVENDRA HARIDAS DAMLE- 34526	9969232958	kambledada143@gmail.com		Subject : Request for removal of debris and garbage near my compound wall.Respected Sir/Madam,I would like to inform you that some people have dumped bricks and debris near my house compound wall , which has created unhygienic conditions. While dumping, one of the sewer lines was broken, causing water leakage that is damaging my house wall. People in the neighborhood have also started dumping garbage at the same spot.I have already complained to the area Jamadar, but no action has been taken so far. Therefore, I kindly request you to get the debris and garbage removed at the earliest and take necessary action against those responsible.Yours faithfully,DEVENDRA H. DAMLE273,Panchasheel nagarNagpur – 17. Date: 04/ 11/ 2025	2025-11-04 12:43:27

690	Bhavesh matey- 34528	9527106111	mateybhavesh27@gmail.com		There is a lot of honking of horns in our city. Even in places near hospitals and schools. Which leads to sound pollution and health problems. In order to curtail this situation i would like to suggest that we shall make schools and hospitals a no honking places with proper boards that honking horns are not allowed near the premises. As this would help in keeping peace and tranquility near places where its most valuable.	2025-11-05 12:10:57
