I am writing to you on behalf of the concerned residents of Rajendra Nagar, Nagpur, Maharashtra. We are facing a myriad of problems in our locality, and we humbly seek your intervention to address these pressing issues.Firstly, our area has been plagued by rampant illegal activities that have disrupted the peace and safety of our community. We are deeply concerned about the rise in criminal activities and the associated threat to the well-being of our residents, particularly our children and elderly citizens. We implore you to take immediate steps to enhance security and law enforcement in our locality.Secondly, the problem of unregulated garages and unlicensed businesses has worsened over time. These establishments not only encroach upon public spaces but also contribute to the overall deterioration of our neighborhood. We kindly request your assistance in implementing effective regulations to control these activities and ensure the cleanliness of our</p>

					<p>environment. Furthermore, the issue of Nag Nadi (Nag River) has been a long-standing concern for our community. Despite repeated notices from the government to address this problem, no significant action has been taken. We urge your office to prioritize the restoration and maintenance of Nag Nadi, as it is essential for the ecological balance of our region and the well-being of our residents. Lastly, the stigma associated with the name of our area, "Zopadpatti," has been a significant hindrance for us. It affects our ability to seek opportunities and move to better living conditions. We kindly request your support in changing the name of our locality to something more dignified, helping us shed this undeserved label. In addition to this letter, we are open to participating in any discussions or initiatives aimed at improving the living conditions in Rajendra Nagar. We believe that, with your esteemed guidance and intervention, our neighborhood can become a safer, cleaner, and more prosperous place for all its residents. We are confident that your esteemed office will take these concerns seriously and initiate the necessary actions to address them. We sincerely thank you for your attention to this matter and eagerly await your response. Yours faithfully, Sujal Siddharth Meshram</p>

Over the past few months, the situation has become increasingly problematic due to such as aggressive behavior or attacks and

SR.NO	CITIZEN NAME	MOBILE NO	EMAIL ID	ADDRESS	DESCRIPTION
					<p>poses a significant threat to the safety and well-being of our community. The presence of these stray dogs has made it unsafe for residents to walk their pets, children to play in the parks, and for anyone to take an evening stroll.</p> <p>Additionally, the constant barking and howling during the night disrupts our peace and tranquility. I kindly request that the local authorities take immediate action to address this issue. Possible solutions could include: Implementing a trap-neuter-return (TNR) program to control the population. Increasing patrolling in the area to catch and relocate aggressive or nuisance strays. Promoting responsible pet ownership and encouraging residents to report any stray dog sightings. Establishing a local animal shelter or rescue organization to provide care for homeless dogs. I understand the challenges involved in managing stray animals, but it is essential to prioritize the safety and well-being of the community members. I urge you to take swift and effective action to resolve this issue and restore our peace of mind. Thank you for your attention to this matter. I look forward to hearing about the steps that will be taken to address this urgent concern.</p>

					reporting and resolution.
92	Antariksh Borkar- 2343	7588110217	borkarantariksh@gmail.com	R/o plot no209 Yadav Nagar Binaki layout,Nagpur	<p>I am writing to propose a transformative initiative aimed at enhancing the efficiency and effectiveness of our public transport system through the establishment of a network of short routes. Currently, our public transport system operates on standard routes, often leading to overcrowded buses, increased waiting times, and limited accessibility to various destinations.</p> <p>To address these challenges, I suggest implementing a network of interconnected short routes that would significantly improve commuter experience and optimize resource utilization. Here are some key benefits of adopting a short route network:</p> <ol style="list-style-type: none"> <li><b>1. Reduced Waiting Time:</b> By eliminating the need for commuters to converge at a few major stops, we can substantially reduce waiting times for passengers, leading to a more efficient and timely service.</li> <li><b>2. Enhanced Accessibility:</b> The short route network will increase accessibility to various destinations by providing direct connections between different parts of the city, thereby reducing the need for multiple transfers and improving overall travel convenience.</li> <li><b>3. Increased Availability of Buses:</b> By distributing passenger loads across multiple routes, we can ensure a more balanced distribution of buses, thereby reducing overcrowding and improving service reliability.</li> <li><b>4. Decreased Chaos:</b> Implementing short routes will minimize chaos at major stops, as buses will no longer be overwhelmed by large crowds of commuters, resulting in a smoother and more orderly boarding process.</li> <li><b>5. Lower Ticket Fare:</b> With a more optimized and efficient transport system, we can explore the possibility of reducing ticket fares, making public transportation more affordable and accessible to all.</li> </ol>

SR.NO	CITIZEN NAME	MOBILE NO	EMAIL ID	ADDRESS	DESCRIPTION
					members of the community.6. Reduced Corruption: Short route services can help minimize opportunities for corruption among ticket checkers, as the streamlined process will make it easier to monitor and enforce fare regulations.To optimize the short route network, we propose collecting data on passes issued, commuter travel patterns, and feedback from passengers. This data will enable us to fine-tune the routes and schedules to better meet the needs of the community.I believe that implementing a short route network represents a significant opportunity to revolutionize our public transport system and improve the quality of life for all residents. I am eager to discuss this proposal further and explore the possibility of collaboration to bring this vision to fruition.Thank you for considering this proposal. I look forward to hearing your thoughts and feedback.

102	Ahmad Jawwad Ahmad- 3206	9737880125	jawwad_lit@rediffmail.com	Prabhag 11, Mangalwari Zone	Dear DC-SWM,As you might be aware, people keep dumping the

SR.NO	CITIZEN NAME	MOBILE NO	EMAIL ID	ADDRESS	DESCRIPTION
					garbage on nearby vacant plots/corners. This is mostly due to the fact the BVG trucks are not visiting the localities daily and people are forced to dump the garbage. my suggestion is to identify such spots (hardly 2-3 in each locality) where people are dumping the garbage and put the barricade with a sign board reading "OYE GADHE, YAHA KACHRA MAT PHEK, KAL GAADI AAYEGI US ME DAAL, NAHI TO DUGA BATTI"
103	Mustak Nawab Sheikh- 3207	7620654576		Nagpur	Birth record
104	Antariksh borkar- 3208	7588110217		Plot no 209 yadav nagar,binaki layout	I am writing to you anonymously to suggest a constructive approach to address certain concerns that have been affecting our community in Yadav Nagar, specifically regarding illegal tent formations and noise pollution during sleep hours, especially with the upcoming wedding season.It has come to our attention that there has been a recent increase in the unauthorized placement of tents along the roadsides, causing inconvenience to residents and disrupting traffic flow. Additionally, the noise pollution generated from these makeshift structures during late hours disturbs the peace and quiet of the neighborhood, which becomes even more pronounced during the wedding season festivities.In light of these issues, I propose that the Nagpur Municipal Corporation consider implementing measures to address them effectively. One suggestion is to enforce fines for individuals or groups responsible for the illegal tent formations and noise disturbances, particularly during the heightened activity of the wedding season. By imposing penalties, we can deter such activities and ensure compliance with municipal regulations, thus mitigating the disruption caused during this

SR.NO	CITIZEN NAME	MOBILE NO	EMAIL ID	ADDRESS	DESCRIPTION
					<p>period.Furthermore, I recommend that the funds collected from these fines be allocated towards a community-oriented initiative that benefits all residents. Planting trees along the roadside in Yadav Nagar could be a worthwhile endeavor, as it not only helps mitigate urban heat but also enhances the aesthetic appeal of our neighborhood and promotes environmental sustainability.I also want to emphasize the importance of maintaining sensitivity and discretion, particularly during communal gatherings and festivals associated with the wedding season. While it is essential to enforce regulations, it is equally important to respect cultural traditions and community events.In conclusion, I urge the Nagpur Municipal Corporation to consider these suggestions for addressing the issues in Yadav Nagar, Ashi Nagar Zone, especially as we approach the wedding season. By taking proactive steps and investing in community-centric initiatives, we can create a safer, healthier, and more harmonious living environment for all residents.Thank you for your attention to this matter. I trust that you will respect my request for anonymity in this matter.</p>

129	Vishal Petkar- 5459	9096221977	vishalpetkar5@gmail.com	Teka Naka Nagpur	Dear Team,I appreciate the dedication you show in your work. As a normal citizen living in our society, I do not expect much from the government. Instead, I aim to offer my support. I pay significant taxes from my salary, and my expectations are minimal. Here are a few examples:Regular garbage collection.The ability to pay taxes through an online portal.Consistent daily water supply.Issues Encountered:Property Tax Payment:My property was not listed for tax payment. I visited the Ashi Nagar Zone office and submitted an application with all the necessary

SR.NO	CITIZEN NAME	MOBILE NO	EMAIL ID	ADDRESS	DESCRIPTION
					<p>documents. It has been about 15 days with no action taken. Despite multiple visits, the responsible officer was often unavailable. As I have a full-time job and can only take leave on Sundays, it is challenging to make repeated visits to the office. I cannot neglect my job responsibilities as I am the sole provider for my family. I hope you understand my predicament.</p> <p><b>Garbage Collection:</b> Garbage collectors do not come regularly, sometimes delaying more than a week. This leads to garbage accumulation and the breeding of worms, which then spill out of the bins.</p> <p><b>Water Supply:</b> Although the water issue has been resolved now, I faced significant problems despite paying my bills regularly. The past difficulties were considerable.</p> <p><b>Expected Solutions:</b> There should be an online portal where I can post complaints if services are not provided regularly. Occasional issues are understandable, but there should be a way to report them efficiently. A mobile application should be available for everyone. This app should notify department employees about complaints in their areas, enabling them to address issues promptly. As the world becomes more digital, it is crucial that we address and improve these basic services. I believe focusing on these improvements will greatly benefit our community. Thank you for your attention to these matters. Sincerely, Vishal Petkar (Software Engineer)</p>

Why Stormwater Drainages getting chocked?Because corrupt NMC Engineers and officers and also contractor are into maximizing their profit. Every year NMC floating the tenders for cleaning of storm water drainage line. But For the sake of money, NMC contractor along with NMC officials not cleaning drainage throughout. They cleans only that inspection chambers part where JE/DE visits for inspection and not cleaning entire sewer line that result in choking of drains in rainy season.NMC Officials should look into this and do the needful for citizens of NAGPUR CITY.

237	Karan nagulwar -14403	8956333778	karannagulwar.rock@gmail.com	409, Shreenagar, Narendra nagar, Nagpur	<p>There are many people who dump waste and many suffer due to this but constant to fear of conflicts no one wants to give complaints of such act. In this modern AI world everyone has smartphone but no one is using it for smart work. It would be great if NMC takes initiative to support this cause, by implementing bounty rewards on each complaints. If complaint is genuine then respective fellow who dump garbage is to penalized and some portion of this penalty can be utilised as Bounty to those who file complaint . Offcourse NMC should encourage garbage collector team for effective work. Penalty amount should be distributed to complainant, garbage collector and NMC penalty fund. Just a penalty of 200 to 500 can contribute in major changes. Think of it. And thank you for work you have done in Shreenagar area. Special thanks to Kamlesh ji and NMC public health team and offcourse thanks to sanitary officers who personally monitored process and thanks to NMC commissioner.</p>

338	Ravinder Singh Khurana- 25235	9552555790	rs.khurana@dpjaingroup.com	20, Shastri layout,khamla,NGP-440025	The foul smell and filth of NALLAHS is black spot in the smart City of Nagpur.This can be taken care of by implementing the modern ideas.At any given time the flow of sewage water into the nallah is constant. After concrete flooring of nallah, a slab of two ft height with lid/covers at interval for clean in case of emergency, can be done so that the sewage water flows thru it and the upper portion be used to carry rain water/road drainage water.This way the nallahs will not give bad smell or bad look and also crores of rupees be saved on cleaning as no vegetation will come up in it.

SR.NO	CITIZEN NAME	MOBILE NO	EMAIL ID	ADDRESS	DESCRIPTION
	Gowardhan - 25468				Nagpur Municipal Corporation Nagpur This is submit with great sadness that I must point out the way Hearse Vans are being parked at the busy T point junction between RPTS Road and Laxminagar Jain Mandir Road. These vans, which display the name of the NGO providing the service of transporting deceased individuals to the cremation center, are illegally occupying a significant portion of the road—right at a crucial T-junction.This issue has persisted for a long time, and due to the lack of actions/objections, a third Hearse Van has now encroached on the junction. I am sure sooner or later this spot becomes a parking terminal for Hearse Vans! While this is undoubtedly an essential service, ideally provided by the NMC or hospitals, the lack of regulation has led to serious inconvenience for commuters.Since NMC does not directly provide this basic service, they should at least ensure designated parking and regular cleaning of these vehicles. Proper maintenance and hygiene are necessary to ensure dignity in the final journey of the departed. NMC must take this issue seriously and arrange for a proper parking space with cleaning and servicing facilities for these poorly maintained Hearse Vans.Sincerely Avinash Gowardhan ( A senior citizen on Nagpur) 176 Laxminagar Nagpur

470	Abhilash Kadoo-30217	8149315207	abhilashkadoo@gmail.com	82, Shrikrushna Nagar, 440024	<p>Currently concrete road work is on going along with storm drainage system. It better to implement rain water harvesting pit in storm drainage so that ground water level can be restored again especially in households/ Societies areas. It concerning for future when all the rain water will flow away in drainage as road will not absorb any water and rest is flown in drainage. This small modification in all the storm water drainage pit into rain water harvesting pits will help in following advantages:1. Increases ground water capacity.2. Reduced storm drainage loads in piping.3. Boost to borewell and open well in household areas.4. Only small modification will be required to change regular pit to rain water harvesting pits with no road digging.Some place to avoid:1. Avoid installing rainwater Harvesting pits on main city roads, flyovers, or where heavy vehicles movement to avoid ground contamination due to any accident (ex. Acid truck leakage) also to disturb strength of structural foundations. Experts to advise.Thank you.</p>

This innovative app enables trees to "speak" to users providing information in both text and audio formats. Each version of the app is customized for individual gardens, allowing visitors to interactively learn about the trees and plants around them. I am keen to develop and implement the "Talking Tree" app for gardens managed by the Nagpur Municipal Corporation (NMC). I believe this initiative can greatly enhance environmental awareness and educational engagement for the public.

491	kishor Deshmukh- 32311	8605090200	deshmukh.kb@gmail.com	25 chintamani nagari 1	Dear sir I citizen of Nagpur from birth education doing business in nagpurAs I work from last 30 yrs in safety for 0 accident in industriesSuggest lot many solutions regarding safety.I regularly going to my place of work from manewada besa Rd to wadi by vehicles. Due to traffic on main, road I used internal road from my house to onkar Nagar Chowk. Sir during this I passed three area my area. Sadguru Nagar & mangaldeep to green planet colony. During this regular travelling my observation on small casualties are at corner of houses or mostly T

					point.Why this is happening?I study the caused. 1.speed of vehicle. 2.talking on phone while driving 3.tangent of Corner plot is not properly maintain with ht of boundary walls. No visibility across two road.4 Driving sense of people to put horn on blind corners.I suggest some remedies1.corner plot to be have good tangent for visibility.2. Put grills on tangent wall & for proper visibility & have simple design 3Ht to be maintain,as low as per std.4.Put proper speed limit board & speedbreaker As per my observation in mangaldeep 3 plot I note in chintamani 1 have noted 4pointAt T section Thease all point are due ht of boundary wall. Tangent cut. No visibility. So pl arranged inspect spot of road T point suggest owners of Corner plot to make modification To avoid accident prone zone As Schools are going to start all school buses , vans start moving In few days at that time every parant in hurry all school drivers. Van drivers have time limit So. All T point are are convert in accident prone zone At this point this my observationHow to make accident free zone Kishor Deshmukh
